

CORE COMPETENCIES

- Epoxy flooring systems: full-flake broadcast, quartz double-broadcast, metallic, 100% solids high-build
- Urethane cement flooring for commercial kitchens, food processing, and thermal-shock environments
- Polished concrete (grind & polish, densifier, stain guard) — projects up to 73,000+ sq ft completed
- TREMCO 350/351 waterproofing membranes for balconies, walkways, and elevated decks
- Concrete repair, coating removal, diamond grinding, and ICRI CSP surface preparation
- Industrial and hangar-grade chemical-resistant coating systems

DIFFERENTIATORS

- OSHA 30-Hour certified crew; licensed, insured, and bonded for public-sector work
- Moisture testing (ASTM) and documented surface preparation on every installation
- Lifetime residential / 20-year commercial installation warranty backed by written prep protocol
- Single-phase and multi-phase installations up to 100,000+ sq ft
- Night, weekend, and phased scheduling to keep facilities operational
